The Bible is the Christian's great treasure. Sadly it is often an unexplored treasure. This annual Bible reading plan has been prepared to help God's people explore this great resource. It can be used in various ways. It could be used to read the entire bible in one year. This is the preferred usage, as Christians really should read the Bible annually if they are serious about getting to know the Holy Scriptures. It could also be used as a schedule to read just the Old or New Testaments in one year and thus the entire Bible in about 2 years.

There are many such plans available. This one is different in that it is designed to (as much as possible) give the reader approximately the same number of verses to read each day, while reading in the order that we have the books in our Bible today. This has been difficult to achieve and the result looks deceptively simple. Many times decisions (as to where to divide the readings) were much prayed about. The Psalms and Proverbs are spread through the year to give variety on occasions, and to help keep the numbers of verses right.
